Press CV (short version)

From the start in 1996 the Kairos Quartet became one of the leading international ensembles in the field of contemporary music. Numerous premieres and faithful interpretations embedded in the environment of superior programming, usually created in contact with composers and curators, led to many prizes and grants as well as performances at the Biennale di Venezia, the Cervantino Festival Mexico, the International Holiday Courses in Darmstadt, the Festival d'Automne of Paris, the MaerzMusik Berlin, Salzburg Festspiele, Warsaw Autumn, and Vienna Modern. More recently the quartet gave its debut at the festival "SoundBridge" in Malaysia and at Elbphilharmonie Hamburg and performed in Shanghai and Guangzhou (China).
